## TECHNICAL SPECIFICATIONS

Flame retardant scaffold sheeting is produced from two layers of low density polyethylene (LDPE) with a reinforced polyester grid and unique patented high performance eyelets. All components are non-volatile with low toxicity and are harmless under normal circumstances.

| Properties                | Fire-Smart <sup>®</sup> Super T Plus   |
|---------------------------|--|
| Material                  | High strength reinforced low density polyethylene with flame retardant formulation |
| Colour                    | White  |
| Grid                      | 8 x 8mm PET MU1670 dtex  |
| Thickness                 | 0.2mm  |
| Tensile strength          | 18kN/m (MD)<br>16.5 kN/m (TD)  |
| Eyelet pull-out           | 957 N  |
| Eyelets per roll          | 270  |
| Fire protection           | LPS 1207<br>LPS 1215   |
| Application               | Internal and external use  |
| Light transmission        | 50%  |
| Roll size and roll weight | 2m x 45m (27kg)  |
